SUWANNEE RIVER WILDERNESS TRAIL

We invite you to explore a place that brings back memories of a simpler time when roads weren't nearly as congested, wild flowers grew in abundance on the roadsides and nature was literally all around us. Welcome to Natural North Florida — the state's original tourism destination that still offers a glimpse of Old Florida. Here we've listed some of the highlights that the area has to offer.

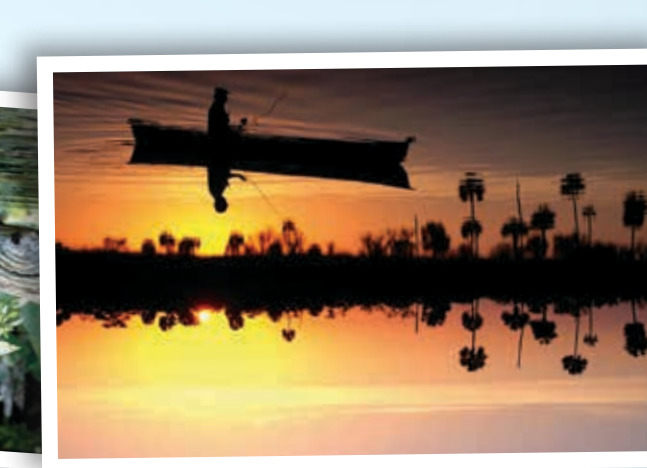

State Park can sleep up to eight. Make reservations at www.reservationarea.com. Many privately owned hotels, motels and lodges are also located at various points along the Suwannee River Wilderness Trail.

- Packages are now available on the Suwannee River Wilderness Trail website for a variety of venues along the river from a half-day paddle to multiple day trips.

MORE WATER FUN

- Sitting atop a wondrous maze of underground caverns and the world's deepest and longest fresh-water spring, the 6,000-acre Edward Ball Wakulla Springs State Park overflows with wildlife. Enjoy a guided riverboat cruise through a protected Old Florida natural corridor of Tarzan movie fame. Stay at the park in a romantic 1930s-era lodge with dining room. A bathhouse, beach and observation platform/diving tower are clustered near the spring.
- Leave plenty of time to sample the other outstanding springs in the area. Choose a campsite such as Ginnie Springs, a camping resort and world-renowned cave-diving location with a dive shop and equipment rentals, or retire in the delightful ambience of one of the many bed and breakfast inns nearby. This area has become very popular with kayakers, canoeists, bicyclists and nature lovers.
- Get an up-close view of local marine life at the Gulf Specimens Marine Laboratory in Panacea. The laboratory contains an array of weird and wonderful treasures from the northwest Gulf Coast in touch tanks and aquariums, including crabs, sea urchins, starfish, stingrays, turtles and seahorses.
- Cave Diving Mecca — The region is well known to experienced divers from around the world who come to explore the caverns of a vast underwater world. Diving instruction and guided tours are available from master dive instructors in area dive shops. For more diving adventures, travel to Old Town, site of the "City of Hawkinsville" Underwater Archaeological Preserve in the Suwannee River. In Williston, both the Devil's Den Spring and the Blue Grotto are excellent places for cave diving and snorkeling. Manatee Springs State Park and Fanning Springs State Park are also great diving and snorkeling spots.

AUTHENTIC GULF COAST FISHING VILLAGES

For fishermen eager to wet a line, try any of our rivers or the local lakes and ponds for bass, brim or catfish, and of course, the Gulf Coast is renowned for its saltwater bounty. Boat ramps and bait and tackle shops are found in many locations. Note: A State of Florida fishing permit is required and is available at most bait and tackle shops.

- Try Keaton Beach and Steinhatchee to experience some of the best sunsets and seafood restaurants around. These friendly fishing communities offer visitor services such as marinas, charter and guided fishing and Victorian-style condo rentals.

- Dixie, Levy and Taylor Counties have deployed 80 artificial reefs offshore!

- The Town of Suwannee at the mouth of the Suwannee River, is a great place to rent a houseboat, a canoe, or a fishing boat and explore the river delta or the Gulf shoreline, which is still much as it was during the days of Florida's early settlers. From Suwannee, boaters may take a leisurely ride upstream for water access to nearby springs.

- Cedar Key is one of the oldest ports in the state, and when Florida's first railroad connected it to the east coast, it became a major supplier of seafood and timber products to the northeast. Today it has become a haven for artists and writers who find the unspoiled environment inspirational to their work. Several galleries and award-winning restaurants dot the downtown.

ANTIQUING AND UNIQUE SHOPPING

Shopping for unexpected treasures is part of the fun of visiting our towns, where you will find shops filled with enticing bargains in collectibles and antiques, affordable souvenirs, gifts, and country arts and crafts.

- There are plenty of places for antiquing. Travel U.S. Highway 90 through Monticello, then on to Madison where a stop at the Hickory Hill Antiques and Gifts as well as the Auction next door are must sees. Head to Trenton to the Crystal Ice House. Stop in Chieffand and explore Manatee Antiques. Williston has Dixie Antiques and Cedar Chest Antiques. Stroll down shady streets of Micapanopy that lead to an array of hand crafters and antique shops full of treasures from yesteryear. Downtown High Springs is also a prime area for antiquing.
- Monticello Vineyards & Winery is a small and unpretentious Florida farm winery. Located in the Red Hills bioregion of north central Florida, the winery is housed at Ladybird Organics. The Dakotah Winery, located just north of Chieffand along U.S. Highway 19, was named Florida's Best Wine Shop by Florida Monthly Magazine.
- The Suwannee Valley Quilt Shoppe, located in a restored 1925 Coca Cola Bottling Company building on Main Street in Trenton, draws quilters and cross-stitchers from the southeastern U.S. Founded by the Log Cabin Quilters Club, the Levy County Quilt Museum near Chieffand is the only registered quilt museum in the state. Twice each year this club organizes a Quilt Show for quilters to display their work at the museum and offer items for sale.
- Wildlife Viewing
 - Payne's Prairie Preserve State Park was named Florida's best spot to view alligators, but keep a safe distance please! Walk the La Chua Trail starting at the north rim of Payne's Prairie for the best gator viewing. While near Gainesville, try fishing in one of the many lakes such as Orange and Lochloosa, renowned for their abundance of bass. It is also a gateway to the Great Florida Birding & Wildlife Trail.
 - St. Marks National Wildlife Refuge provides wintering habitat for migratory birds. Consisting of more than 70,000 acres on the Gulf Coast in Jefferson, Taylor and Wakulla Counties, the refuge offers miles of trails and many exceptional wildlife viewing locations.
 - The Santa Fe College Teaching Zoo lets you view animals in a relaxed and natural setting. One of only two teaching zoos in the country, this zoo is located just off of I-75 in Gainesville.
 - The 53,000-acre Lower Suwannee National Wildlife Refuge was established to protect one of the largest undeveloped river-delta estuarine systems in the United States. It is located approximately 16 miles southwest of Chieffand on State Road 347.
